___ Compliance  ___ Non-Compliance

Comment:

2.2 The institution has a governing board of at least five members that is the legal body with specific authority over the institution. The board is an active policy-making body for the institution and is ultimately responsible for ensuring that the financial resources of the institution are adequate to provide a sound educational program. The board is not controlled by a minority of board members or by organizations or interests separate from it. Both the presiding officer of the board and a majority of other voting members of the board are free of any contractual, employment, or personal or familial financial interest in the institution.

A military institution authorized and operated by the federal government to award degrees has a public board on which both the presiding officer and a majority of the other members are neither civilian employees of the military nor active/retired military. The board has broad and significant influence upon the institution’s programs and operations, plays an active role in policy-making, and ensures that
the financial resources of the institution are used to provide a sound educational program. The board is not controlled by a minority of board members or by organizations or interests separate from the board except as specified by the authorizing legislation. Both the presiding officer of the board and a majority of other voting board members are free of any contractual, employment, or personal or familial financial interest in the institution. (Governing Board)

*2.7.3 In each undergraduate degree program, the institution requires the successful completion of a general education component at the collegiate level that (1) is a substantial component of each undergraduate degree, (2) ensures breadth of knowledge, and (3) is based on a coherent rationale. For degree completion in associate programs, the component constitutes a minimum of 15 semester hours or the equivalent; for baccalaureate programs, a minimum of 30 semester hours or the equivalent. These credit hours are to be drawn from and include at least one course from each of the following areas: humanities/fine arts, social/behavioral sciences, and natural science/mathematics. The courses do not narrowly focus on those skills, techniques, and procedures specific to a particular occupation or profession. If an institution uses a unit other than semester credit hours, it provides an explanation for the equivalency. The institution also provides a justification if it allows for fewer than the required number of semester credit hours or its equivalent unit of general education courses.  (General Education)

2.7.4 The institution provides instruction for all course work required for at least one degree program at each level at which it awards degrees. If the institution does not provide instruction for all such course work and (1) makes arrangements for some instruction to be provided by other accredited institutions or entities through contracts or consortia or (2) uses some other alternative approach to meeting this requirement, the alternative approach must be approved by the Commission on Colleges. In both cases, the institution demonstrates that it controls all aspects of its educational program. (See the Commission policy “Core Requirement 2.7.4: Documenting an Alternate Approach.”) (Course work for Degrees) (Note: If an institution does not offer all course work for at least one degree at each degree level, it must request approval and provide documentation for an alternative approach that may include arrangements with other institutions.
