

THIRD THESIS COMMITTEE MEETING REPORT

This form must be submitted to the Graduate Coordinator prior to the end of the student's third semester in residence.

The purpose of the third committee meeting should be to discuss the student's progress in his/her research project. Problems that have arisen should be addressed and suggestions for their resolution discussed. Substantive changes in the experimental design from those outlined in the prospectus should be discussed, and, if appropriate, approved by the committee. Any such changes should be summarized below in the space for comments.
