

Training Mission 2007 UNCW Robotics Camp

Register at:

www.uncw.edu/csc/robotics

or

910.962.3195

During this week-long camp, learn how to create and program unique robots! Assemble bricks, motors, gears and sensors in all-new ways. Combine sensors to create robots that respond to their environments. Work with Computer Science faculty, graduate and undergraduate students.

Middle School students will explore robotic fundamentals while constructing a functioning robot. Demonstrations and hands-on activities will provide an understanding of simple machines and the function of basic electronic components.

Dates:

Session I June 25-29

Session II July 9-13

8:00 am to Noon daily

Location:

UNCW campus, Computer and Information Systems Building (CIS), CI 1006

Register:

Call our registrar at 910.962.3195 and ask for the Robotics Camp or online registration forms are available www.uncw.edu/csc/robotics \$200 per session (\$185 for early registration - by May 1st)
