

Theory-to-Practice Ed Lab Workshop Series Spring 2012

Betty Holden Stike
Education Laboratory

News Flash!!! New Workshop Added!!!

Differentiating Instruction using Universal Design for Learning Approach

Dr. Amy Moody

Participants will gain a better understanding about how to differentiate their instruction for diverse learners using a Universal Design for Learning Approach. We will review resources and online tools for enhancing supports to children who struggle to learn. These will include high and low technology solutions. Finally, attendees will walk away with strategies they can implement quickly and easily.

**Thursday, March 8th
1:00-2:00...in the Ed Lab**
