

WATSON SCHOOL OF EDUCATION
UNIVERSITY OF NORTH CAROLINA WILMINGTON

MAT Policy for Being Hired During Internship

(This covers the situation in which the intern is asked to take over the partnership teacher's full teaching responsibilities.)

- Intern would be hired as a long term substitute up to the date of early release.
- Intern would continue his/her internship up until the early release date.
- Throughout this period intern would continue to be supervised by his/her partnership teacher and university supervisor.
- All parties involved--partnership teacher, department chair, site coordinator, principal, university supervisor and Director of Professional Experiences -- must agree with this decision. Specifically:
 1. The intern can successfully teach the assigned classes
 2. This decision would not adversely affect the intern's evaluation or recommendation for licensure
