Classification of Categories:

Undergraduate Student Category

An undergraduate student is defined as an individual who carries a minimum of six credited hours for both terms of the current academic year (2008-2009) and who will be carrying six credited hours in the upcoming academic year (2009-2010). An applicant is required to hold the necessary credited hours that identify him/her as an undergraduate both in the year that he/she applies for the award (2008-2009) and in the year that he/she will be receiving the funding from IMA (2009-2010). To qualify for the SCMS Scholarship Award, the student must carry 12 credited hours for the current academic year and 12 credited hours for the year in which the award will be received.

Graduate Student Category

A student who is seeking to apply for an IMA scholarship under the graduate category must either hold the necessary credited hours that define him/her with senior status at an undergraduate level or be a current graduate student who will be continuing in a graduate program. If the student is an undergraduate senior, he/she must be expecting to graduate prior to the commencement of the next academic year. The student is required to maintain six credited hours for both semesters during the current year (2008-2009) and in the year that he or she will receive funding from IMA. To qualify for the SCMS Scholarship Award, the student must carry 12 credited hours for the current academic year and 12 credited hours for the year in which the award will be received.

Selection of Candidates:

All candidates will be considered equally with no bias to race, creed, or background and will be judged independently on the basis of the applicant's ability to meet the criteria as outlined in this document. If for some reason a selected individual declines his/her award or becomes ineligible, an alternate candidate will be selected to receive the award. Two alternates will be selected in each category in the event that this circumstance takes place.
