LGBTIQA Education Abroad Resources

Participating on an Education Abroad Program can be the experience of a lifetime! UNCW sponsors more than 300 study abroad and exchange programs in more than 50 countries. There are many factors to consider in selecting the most appropriate program to suit your needs and meet your goals. The Office of International Programs recognizes that one's identity and sexual orientation may be important factors to consider when exploring program options and preparing for a positive experience abroad. We wish to support you in this endeavor and hope the following resources will provide helpful guidance.
