

Summer on the Mediterranean Marseille, France - Summer 2009

Study Abroad — University of North Carolina Wilmington

Marseille

Founded by the Greeks more than 2600 years ago, Marseille is the oldest city in France. It is the country's second largest city and the largest port in Europe after Rotterdam. It boasts a unique heritage and enjoys a spectacular setting along the Mediterranean. Its majestic island-studded bay and its 'Calanques', rocky inlets and lagoons, are world famous. It is a seaside city with a cosmopolitan character, and Euromed Marseille provides a scenic campus setting for the study of business, culture and language.

A city tour will begin the program where you will have the opportunity to understand the town and its passions, discover its beauty, and take in its excesses. We will tour several businesses including the old port (Vieux Port) where ships have docked for more than 26 centuries. With its forest of sailing masts, fishwives selling freshly-landed fish at the open air market and outdoor cafes, here the charm of the city is at its most tangible.

With Marseille as your 'home base' you will have immediate access to the unsurpassed beauty of Provence, the Alps and the French Riviera, Italy is just 125 miles to the east, Spain 200 miles to the west, with Paris, Switzerland, and the Netherlands easily accessible for weekend travel. Marseille is a celebration of the outdoor life: cafes, cuisine, and the haunting splendor of the Mediterranean Sea.

Summer Study In Marseille, France

**June 29 – July 23
Summer Session II**

“Regardless of your major, going abroad is for anyone and everyone.”

Four Week Program

Classes will meet 9:15 to 11:00/11:15-1:00/1:30-3:00 Monday-Thursday
Most Thursdays are devoted to field trips to cultural sites and local companies, etc. (3 day weekends for you to travel and explore on your own)

POM 370: Principles of Operations Management: This course provides a study of the drivers of quality, customer satisfaction, efficiency and productivity in service and manufacturing enterprises. Topics include product and service design, forecasting, quality management, facility location and layout project management and scheduling among others. While topics are covered for both manufacturing and service operations, attention is directed to the study and analysis of the operations management function in service enterprises (Prerequisites: QMM 280)

INB 300: International Business: This is a survey course covering the importance of global issues as firms attempt to compete across the world. Key topics include: anticipating and preparing for global competition, understanding international trade theory and differences in political economies, reviewing global and regional economic integration, considering international market entry processes, and examining key cross-cultural issues affecting business operations. (Prerequisites: ECN 222)

FRH: French Language (3 credits): You will learn grammar, comprehension, and expression skills through daily 90 minute classes in small groups, composed by level of ability. *Depending on need, we may be able to also offer intermediate and advanced levels.*
