When first creating your Blackboard course, you may want to make it unavailable to your students so they don’t see content until the first day of class, etc. The course can easily be made available and unavailable to students.

- Login in the Blackboard Learn and click on the appropriate course
- In the Control Panel section, click **Customization**
- Then, click **Properties**

### 2. Set Availability

*Note: if you make your course unavailable, remember that you must go back and make it available again if you want students to access the course*

<table>
<thead>
<tr>
<th>Make Course Available</th>
<th>Yes</th>
<th>No</th>
</tr>
</thead>
</table>

- Under #2. Set Availability, click **Yes** to make the course available or click **No** to make the course unavailable.

- Click submit when you are finished
