Is the definition of “human subject”* met in this activity?

*Human subject is defined as a living individual, about whom an investigator (whether professional or student) conducting research obtains: 1) data through intervention or interaction with the individual, or 2) identifiable private information.

Does the research project involve an interaction or intervention with a living person (including face-to-face, by mail, by phone, etc.)?

- Yes
- No

During this interaction, will you seek any data about the person (i.e., behavior, beliefs, experiences, medical status, or economic status)?

- No
- Yes

Will identifiable private data/information be obtained for this research in a form associable with the individual?

- Yes
- No

Human subjects are involved. You must submit a Human Subjects Protocol form to the IRB for review. No activity may begin prior to receiving IRB approval.

UNCW IRB policy does not apply. You do not need to submit a protocol to the IRB.
