

# Fundamentals of Environmental Education

## Explore the Field of Environmental Education!

**Learn the essentials of environmental education (EE), including resources for teaching about the environment, strategies for incorporating EE into your instruction, and how EE can help you accomplish standards in many disciplines.**

"Fundamentals of Environmental Education" is a new distance learning course that provides an introduction to EE. It is appropriate for both classroom teachers and non-formal educators who work with students and/or teachers.

- Environmental Studies EVS 592: Fundamentals of Environmental Education is available for three graduate (DE) level credits through University of North Carolina Wilmington.
- The course is based on the "Guidelines for the Initial Preparation of Environmental Educators" document produced by the North American Association of Environmental Education (NAAEE).
- Total costs of tuition and fees for this three credit hour course are \$492.15 for in-state graduate students and \$2067.72 for out-of-state.
- For application information, go to <https://app.applyyourself.com/?id=UNCW-GRAD>

### Questions?

**Contact course instructor Dr. Rosanne Fortner at [fortner.2@osu.edu](mailto:fortner.2@osu.edu) or the Environmental Studies Department at [evs@uncw.edu](mailto:evs@uncw.edu) or 910-962-7675**

**"Environmental education will help you create instruction that crosses traditional disciplinary boundaries and create "real world" contexts for student learning."**

**-Susan Toth, Florida Atlantic University**

This course was developed with the support of the Environmental Education and Training Partnership, funded by the United States Environmental Protection Agency.
