NOTE: It is strongly recommended that a student either complete a minor in a discipline that applies mathematics or elect advanced coursework involving mathematical applications in another discipline. A list of recommended courses in biology, chemistry, computer science, earth sciences, economics, information systems and operations management, physics, psychology, sociology, and statistics is available in the department office. A student who plans to pursue graduate study is urged to take MAT 411-412.

¹*PHY 201 is highly recommended as the Basic Studies physical science requirement

²Students interested in the degree program in MAT are encouraged to begin w/ MAT 161. Initial placement is based on high school background and the MAT Placement Test. Students not prepared for MAT 161 should begin w/ MAT 115 or 111-112, as appropriate.

³ **Computer Competency Requirement:** MAT 161-162, 261, and 335; STT 215 and CSC 112 or 121

An overall average of "C" (2.00) or better is required for all 300-400 level MAT or STT courses counted toward the major.

*These courses require a lab

+May also be used to satisfy Basic Studies requirements

(3) ELECTIVES

_____ Elective hours to equal a minimum of 124 hours (**Recommended areas related to MAT: biology, chemistry, computer science, earth sciences, economics, information systems and operations management**)

Requirements to declare MAT: Completion of 24 hours
