****Teacher Licensure:** In addition to completing the requirements for a B.A. degree in BIO and the other requirements of the Teacher Education Program, the following courses are required for BIO licensure: *BIO 315, *BIO 325 or *340 or *345, BIO 190 or *425, and *GLY 101 or 150. Additionally to earn Secondary Science Licensure students must select at least 21 hours from 3 physical science areas. A minimum of 2 courses from each discipline, including PHY 260, is required. For information on the Teacher Education Program admissions criteria and the courses required for licensure in North Carolina, see the Watson School of Education section of the catalogue or the Watson School of Education WEB site. Students planning to pursue licensure should apply to the Watson School of Education as soon as admissions requirements are met (typically in the sophomore year) and plan their programs in regular consultation with their advisors. Teacher licensure requirements are established at the state level and may be changed by the state at any time.

¹ *Students may declare a major in BIO after completion of 30 hours and a GPA of 2.50 or higher in two BIO lab courses, preferably BIO 204 and 205 or 206.*

² *A "C" (2.00) or better average is required in all BIO courses above 200*

* *These courses either include a lab or require a corequisite lab*

+ *May also be used to satisfy Basic Studies requirements*

(3) ELECTIVES

_____ Elective hours to equal a minimum of 124 hours

Requirements to declare PRE-BIO: Completion of 30 semester hours.

Requirements to declare BIO: Completion of two BIO lab courses, preferably BIO 204 and 205 or 206, with an average of 2.50 or higher.
