

Tutor Testimonials

This page introduces you to some of our wonderful tutors and what they have to say about working with us on the Hillcrest Reading Program.

“I started tutoring at Hillcrest last semester and I absolutely love it! I am majoring in education and wanted to get some experience working with kids. This program was the perfect opportunity to get hands on experience in the education field. I have been working with Shea who is four years old. He started out learning a few sounds and now he is reading whole sentences! The research team in charge of the program is very friendly and the kids are just a blast!”
