The Graduate School

The Graduate School provides leadership and coordination in developing and maintaining graduate programs that complement and extend UNCW's undergraduate offerings. These programs, which are responsive to local and national needs and consistent with the university's mission, are designed to prepare students for successful careers in basic and applied research, develop their art to a professional level, provide the necessary background skills and experience needed for many professional positions, or enable students to continue their education beyond UNCW. To meet these objectives, the Graduate School monitors programs to ensure that their standards and performance are of the highest quality. It also provides logistical support necessary to enhance the graduate experience and facilitate progress toward the degree.

In adjusting to a changing educational environment, the Graduate School promotes communication and cooperation among faculty and students across traditional academic boundaries, promotes development of innovative and interdisciplinary programs, seeks funding to support these programs, helps create an environment that will allow research and creative activity to flourish, and provides leadership in achieving diversity in all aspects of graduate education.

The University Learning Center is committed to being a vital part of UNCW students’ education. Academic support services are based on the principle that quality learning takes place when peers work collaboratively to develop knowledge and build skills. The University Learning Center provides students a learning environment and experience that differs from the classroom; we focus on high-quality individual, small-group and large-group student-centered and student-lead learning.

Provide quality programs and services that effectively meet the primary mission of each department:
- Provide academic support services in the form of peer tutoring
- Provide a student-centered, non-traditional, and innovative learning experience for students
- Develop students’ knowledge, skills, and abilities to prepare them to serve society and address the challenges of their careers:
  - Nurture the development of academic knowledge
  - Nurture the development of transferable skills

Provide high quality, well-maintained, and accessible facilities which support student success:
- Ensure that our facilities are accessible to all students
- Track student usage to ensure space is used efficiently

The University Learning Center is designed to be the singular, central location on campus students come to for peer tutoring academic support. Since the ULC opened in 2005, students have come to one office to receive a variety of academic tutoring: such as collaborating with a writing tutor about a paper, meeting weekly with a learning tutor, or dropping in at the Math Lab to talk with a math tutor. Even the Supplemental Instruction program, which provides large group tutoring for particular classes in a variety of spaces across campus, is based out of the ULC office.

Parking and Transportation Services

Parking on Campus
Campus parking regulations and permit enforcement is 24 hours per day, seven days per week. All parking on campus is by permit only. All vehicles parked on university property must be registered, display a valid UNCW parking permit and park only in areas authorized by the permit classification. For graduate students, you most likely will possess a Commuter Zone 1 (magenta) parking pass or a Commuter Zone 2 (blue) parking pass. Parking is assigned based on housing, class status and availability. These zones sell out quickly and are not guaranteed. As holders of these permits you must park within your designated zones.

Students, faculty and staff are not visitors and cannot park in designated visitor only areas. Students, faculty and staff may park at metered or pay station parking as long as the meter or pay station space is paid. You must have a valid parking permit or purchase a permit to park on campus.

Parking Rules and Regulations
Students cannot park in:
1. Faculty/Staff Spaces (yellow lines)
2. Service Vehicle Spaces/ Visitor Spaces (teal lines)
3. Gated Lots
4. Reserved Spaces

- Any vehicle parked on campus requires a permit. A vehicle is defined as any motorized form of transportation that requires insurance and/or a license plate under NC law.
- UNCW Enforces Parking: with ticketing, booting and towing.
- Rules and Zones: regarding service vehicles, fire lanes, loading zones, 24-hour reserved, handicap and visitor spaces must be observed at all times.
- Lack of convenient parking is not a valid excuse for a violation.

The UNCW Police Department is located on the East side of campus, on Lionfish Drive, and is open 24 hours a day. Police officers patrol the campus seven days a week, 365 days a year. The primary objective of the UNCW Police Department is to provide a safe and secure environment within which students, faculty, and staff can live, learn, and work. The department is comprised of three divisions - Support Services, Investigations, and Operations. The officers who staff these divisions are duly sworn, certified, armed, and empowered with the same authority as other local law enforcement officers in the State of North Carolina as regulated by the North Carolina Department of Justice.

Telecommunicators, program managers and command-level personnel provide administrative support for the various divisions. The department also employs 5 full-time and approximately 15 part-time security guards who assist community members by performing building patrols, area patrols, escorts and access to other departmental services.

**Support**
Develop and maintain programs and resources that support quality of life, academic excellence, social well-being and a positive over-all experience for Black students at UNCW.

**Advocacy**
Maintain a level of expertise about the Black student experience that affirmatively informs the policies, practices and programs of UNCW administration, Academic Affairs and Student Affairs.
