**Insurance questions:** If you have not yet completed your insurance waiver or enrollment, the appeal period is open until September 30. The website is [www.studentbluenc.com/uncw](http://www.studentbluenc.com/uncw). Questions: email Tabitha Summerlin at summerlint@uncw.edu. Be sure to include your 850 number and phone number.

**Immunization issues:** If you have not yet turned in your immunizations please email a copy to Leigh Lane at lanel@uncw.edu. You can also email any questions to Leigh. Be sure to include your 850 number and phone number.

**I have heard more about mosquitoes in the news recently.**

There will be an increased number of mosquitoes following a hurricane, especially in those areas that received a lot of rain and in places where there is standing water. New Hanover County has already begun spraying to help control the mosquitoes, and campus has a great mosquito control plan. All of the products are safe for the turtles and other animals on campus.

To protect yourself:
- Use insect repellent that contains DEET, picaridin, or oil of lemon eucalyptus when outside
- Apply your sunscreen first and then your insect repellent afterwards
- Wear a long sleeved shirt and long pants when outside, especially if you are cleaning up storm debris

**Other questions** including making an appointment: For all other questions, please email Katrin Wesner Harts at wesnerk@uncw.edu. Be sure to include your 850 number and phone number.
